

My name is Ishan Khetan, an MBA aspirant, currently a final year undergraduate student who is striking a balance between education and extracurricular activities. I am eager to learn new skills in the world of management and their application in real life.

Outside of the classroom, my experience in one of the world's largest youth-run organisation, AIESEC allowed me to express my willingness to learn varied skills and develop my leadership skills by taking up diverse roles and responsibilities, becoming a better leader, and managing things more efficiently.

Moreover, having an extensive experience in Model United Nations Conferences has not only equipped me with skills in event management and planning but also taught me team management, organization skills, marketing, and talent acquisition.

Team leading experiences not only makes me a dependable person but also adaptable to dynamic situations. Proficient at taking instructions and strictly adhering to them along with the ability to issue them in a coherent manner to ensure the recipient understands well.
